

3-2-1 Bridge Instructions

Purpose

This routine invites learners to uncover their initial thoughts, ideas, questions, and understandings about a topic, and then, after engaging in learning experiences and experiencing some instruction, to connect these to new thinking and ideas

You will complete this work in a “Learning Journal”. This can be on paper or electronic.

You will be given a prompt and asked to record your thoughts about it in three phases.

Do not overthink your responses!

Freely brainstorm your initial thoughts, there is truly no right or wrong response.

Phase 1: Record 3 words

Quickly write three words that come to mind when you think of the prompt.

Phase 2: Ask 2 questions

Write two questions that you were wondering about when thinking about the prompt.

Phase 3: Develop an analogy or metaphor

Write an analogy or metaphor that encapsulates your ideas about this prompt

- **Analogy:** *a comparison between two things, typically for the purpose of explanation or clarification.*
 - a thing which is comparable to something else in significant respects.
 - Ex: “works of art were seen as an analogy for works of nature”
- **Metaphor:** *a figure of speech in which a word or phrase is applied to an object or action to which it is not literally applicable*
 - a thing regarded as representative or symbolic of something else, especially something abstract.
 - Ex: “the amounts of money being lost by the company were enough to make it a metaphor for an industry that was teetering”

Title and date your entry

We will be coming back to these entries to complete the “bridge” after you learn some more about this topic.
